## Indications for use

HANDCARE™ Sterile gloves should be used before a sterile procedure, when anticipating contact with blood or other body fluids, when making contact with the patient or the patient's immediate surroundings.

## Instructions for use

1. Remove any objects from your hands.
2. Ensure hands are clean.
3. Take out gloves one by one from the sachet.
4. The gloves are ambidextrous, hence can be worn on either hand.
5. Avoid excess force when donning the glove.
6. After use, dispose the product in accordance with your facility's internal guidelines.

## Storage Conditions

Store in a cool dry place.
